France

k.a. Giulio Maresca

Object: M/Y BOADICEA – Refit 2019 - 20-years Lloyds Register Class renewal

With the present, I would like to thank you Giulio Maresca and all Palumbo's superyacht team in Marseille for the assistance and good works performed onboard our managed yacht M/Y BOADICEA built by AMELS in 1999 and classed by Lloyds register.

During the period January – April 2019 M/Y BOADICEA was engaged in a refit project involving dry-dock operations/maintenance, engineering maintenance and new installation, deck works, teak renewal, partial hull and superstructure painting and interior renovation works. Palumbo's team thanks to their organization and professionalism and collaboration with FRASER's team always in shipyard for all the duration of the refit, we achieved together a complex project on good timing and excellent quality despite several change orders and 20 years Class renewal under Lloyds Register which required a lot of inspections.

We are sure we will collaborate again in future projects.

Kindest regards,

Andrea Angiolani,
Manager Yacht Services Monaco,
