

20 March 2012

Capt. Giulio Marseca
Palumbo Malt Superyachts
Senglea, Malta

Dear Giulio,

I am writing to extend my compliments to MSY and acknowledge a good result during our recent (4) month shipyard period.

Our experience began with good project communication and progressed to an excellent outcome with work on the running gear for our (5) year Lloyds Special Survey, as well as general bottom and antifouling works. As tasks continued in many different areas, we were impressed from start to finish with the shipyard staff employees, as they exhibited both a good knowledge of their trades and an excellent work ethic.

The satisfaction continued with the outside contractors of various trades that were called in by MSY on our behalf. Local trades such as upholstery, wood finishes & marble works from within the island were some of the best craftsman I have experienced in my (25) years in yachting.

If ever our future schedule allows a maintenance period in this region, we would be pleased to return to Malta and work again with MSY.

Respectfully,

Charles Hacker
Master

M .Y. Aviva
