## MONTECARLO

Monaco, November 10th 2016

**To Whom it may concern**

As Management company we have worked with Palumbo SY Shipyard for a refit on the MY SENSEI 39 mt., built by Mitsubishi H.I.

The refit has taken place from August to September 2016

The works that have been done, involved different departments, amongst these the most relevant were:

- Drydocking.
- Antifouling.
- Withdrawal of propeller tail shaft.
- Replacement of stern tube bearings.
- Class renewal.

In addition to the works listed above we have done some works of general maintenance and overhauling.

We can confirm that all the works have been carried out properly and in a timely driven and extremely professional manner, meeting all Owner's requirements in terms of contractual delivery time, budget prevision and as per agreed specifications.

In trust
