Palumbo Shipyard Marseille,
Boulevard des Bassins de Radoub Formes 5 - 6
13002 Marseille
France

Moto yacht « KOLAHA » went to Palumbo Shipyard Marseille, to carry out her ten years survey and more especially since Palumbo Group has become our mother yard with ISA.

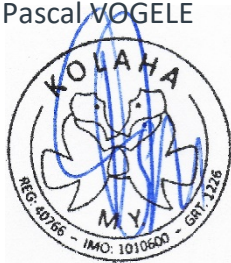

I am taking this opportunity to thank Mr Giulio Maresca for his devotion during the COVID period we have passed together in their facilities. Our technical stay was difficult in spite of this major sanitary event, Palumbo has performed all our demands: passing by a ballast tanks conversion, shaft & rudder arrangement complete control, stabilizers system refitted and many other unnumerable machinery items.

In this special circumstances, we are more than happy to have done the job on time before our summer season.

To all, office & administration team, project manager & technical team, thank you.
We will see you again.

Best regards

Captain Pascal VOGELE
