

NOURAH of RIYAD

To Whom It May Concern:

Only good thoughts and comments coming to mind regarding Palumbo SY and Mr.. MARESCA.

We addressed to PSY on a critical phase of our repairs and time frame. Immediately Mr. Maresca provide me dates and services that could short out in time our situation.

The professionalism of all personnel is above standards and even more. The technical support and feeling of security is something that only well organized shipyard could provide and PSY 100% is oriented on this sector.

On my career and after been in several yards across Mediterranean sea, PSY Marseille is one shipyard that I would highly recommend and Mr. Maresca is a yard Manager that could assist and look after and short out any issue that could arise.

Once again thank you for your support.

Kind regards

Capt. Michael Melemenis
