

M/Y Titania

Marseille, France
Saturday, December 12, 2020

To whom it may concern,

M/Y Titania would like to thank Mr. Giulio Maresca and PALUMBO superyacht Marseille team for the job well done.

Titania called into Palumbo Shipyard during our annual Autumn shipyard period in 2020. During this time, we completed a number of works including technical maintenance and repairs to both our passerelle and side-boarding ladders, shaft-line & propulsion works, tank and shell-plating and many other large tasks relating to the completion of our 15-year class survey.

Good forward planning combined with professionalism, care and attention from the team at Palumbo SY Marseille, ensured that the project remained on schedule as planned and we were able to depart the shipyard in time for our Christmas and New Years Charters.

Good teamwork and co-operation from the Palumbo team has allowed us to complete a large amount of work in a very short time.

We would like to congratulate you all for a job well done and plan on returning to Palumbo for future maintenance periods.

Kind regards,

Jacques Heymann
Captain
