

**To Mr. Giulio Maresca**

**Palumbo Superyacht Shipyard Marseille**

I am writing this letter to show my appreciation for all the hard work and effort the personnel of Palumbo Shipyard Marseille did for m/y "Tommy".

We arrived at Palumbo Shipyard in March 2016 with a very tight time schedule and long list of works and technical problems to solve.

Jobs done:

- Full re-paint of hull, including the waterline with Awlcraft International, which the shipyard managed to complete with some very good subcontractor of their choice in a very short time and impeccable final result;
- Major engine service and maintenance works;
- Steel carpentry repair of the wet exhaust system (raisers);
- Steel carpentry replacement of floor supports and plates in the engine room;
- Rust treatment in plenty exterior areas;
- Fuel tank cleaning;
- Grey water and black water tanks cleaning;
- Internal furniture refurbishing works, including upholstery and wood carpentry;
- Long list of minor issues.

Their facility is clean, organized and has got the equipment a yacht would need.

The work was done properly with a very high standard and I would definitely recommend their service and facility to any super-yacht repair, modification or maintenance.

Monaco, 15.07.2016

Vessel Technical Manager  
Stefano Ruscitti
